PROJECT:

Educational: (<https://nxgrade.com/>)

The All-in-One Platform for Educational Assessments. Next Grade is a simple, customizable & smart online testing platform for teachers, students & trainers. Create interactive assessments through online and mobile tests that can help students gauge success & deliver results without a hassle.

Technology used: HTML, CSS, Vue.js and Vuetify

DC-KTS: Online Educational Platform:

DC-KTS is a user-friendly online educational platform designed for teachers and students. It enables easy creation of interactive assessments, provides a hassle-free testing experience, and allows students to access recorded lectures. Teachers can efficiently manage exams and deliver lectures online, making it a comprehensive solution for remote learning.

Technology used: HTML, CSS, Vue.js 3 and Vuetify 3

Medical Rides: (<https://safrcare.com/>)

An all-in-one platform facilitating medical transportation for patients. Users can create ride requests to reach hospitals, and dedicated rides pick up patients for hospital visits.

Developed using HTML, CSS, Vue.js, and Vuetify for seamless and user-friendly interactions.

OMC global (Ride facilities): (<https://omc-global-v3.vercel.app/>)

OMC Global offers ride facilities for users to conveniently request rides to their destinations. Whether it's a one-way trip or a round trip, users can easily book their rides.

Developed with HTML, CSS, Vue.js, Nuxt.js, storyblok, and Tailwind CSS for user-friendly interaction.

Key Qualifications & Responsibilities

- Implemented websites, and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Assessed UX and UI designs for technical feasibility.
- Developed standard and ad hoc reports in graph format as required.
- Collaborated with product team members to implement new feature developments.
